Mypolonga Primary School

Government of South Australia
Department for Education and Child Development

- Enrolment Policy -

At Mypolonga Primary School staff, parents and students work together to make our school a happy, safe, success-orientated learning environment which encourages all students to become responsible and self directed learners.

1. Mypolonga Primary School agrees to enrol students for whom this school is their school of right.
2. Mypolonga Primary School agrees to enrol the siblings of students who are already enrolled at the school.
3. Mypolonga Primary School agrees to enrol students who have another school of right provided that our classes are not filled to capacity at the time of commencement of school.
4. Mypolonga Primary School will continue to record student names in advance (pre school students) from outside the zone provided these families understand that if, on the year/term of actual enrolment, the class in question is at capacity, the school may not be able to enrol that child. Students will be placed on a waiting list, in order of date of enrolment.
5. Students who have Mypolonga Primary School as their zoned school of right, and are over 5km from school, are eligible to travel to and from school by bus. Transport for other students on bus is subject to availability. Please contact the Principal for more information.

This policy is designed to allow the school to maintain manageable and fair class sizes and distribution of school resources.

This policy was developed in consultation with the Mypolonga Primary School Improvement Committee, Mypolonga Primary School Governing Council, Principal and Staff of Mypolonga Primary School and the Regional Director.
