School Hats

In accordance with our SunSmart policy, **students are not required to wear school hats during Term 2.** This follows guidelines in Cancer Council's recommendations about balancing the harms and benefits of sun exposure. Depending on school activities, UV levels should also be monitored during the month of May and sun protection recommended on those days when the UV is 3 and above. Today, we asked all students to take their hats home to be washed and repaired (if necessary). Hats are to be returned to your child's classroom locker for safe keeping until Term 3. Thanks!

Drink Bottles and Containers

Also, during the holidays, we kindly ask that you check your child/ren's drink bottles, lunch boxes and containers to make sure they are washed and **permanently labelled with their name on it.** We continue to have a large amount of unnamed items end up in our lost property box (including unnamed jumpers and jackets). Please also refrain from sending in glass lunchboxes and drink bottles as a few have dropped and shattered in the past.

We Roar as One

It has been fantastic to be part of the collective growth and learning of our students, parents and staff this term. One of the great things about a school environment is the ongoing challenges and learning that come from so many of our social and academic interactions within this three-way partnership. To see the power of our interactions, our communication and learning from each other and the challenge to keep improving is what we continue to strive for. These are great skills that we have been able to display to the child/ren as an example. We as staff continue to learn. The first step to being a good person, is being an even better learner. Thanks to ALL our learners this term!

Sports Day

Thanks to all our parents who volunteered and assisted last Wednesday for our Sports Day. What an amazing day we had; the adaptations made to our program allowed for the slightly damp start, which led into the perfect afternoon conditions for a very competitive day! The competition was amazing, with great participation by all students and the encouragement from students, parents and staff was outstanding. I really appreciated the way everyone was able to work so cohesively together. The great leadership of our house captains and the organisation of our staff.

Thanks to Zoe, Jacob and Necia for all their organisation of the day as well as Dan and David for having the school looking amazing! Congratulations to Finnis on their win!

If you have any feedback to improve the day, please contact the school.

Safe Holidays

The last 11 weeks have gone so quickly, and I can't believe we are at the end of Term 1 already. As always, it is time for students to take a break and relax, but it is also important to keep our brains active. Playing board games, reading books, and interacting in the outdoors are all great ways to continue learning in a fun and engaging way. Keeping our minds active during the break is an important part of our learning journey and helps prevent the brain drain that can occur when we switch off completely.

Enjoy having your children present at home with you, these are moments in time we sometimes take for granted!

Working together, Sunyl Vogt

VR Ocean Adventure!

What an amazing experience for our MPB, UPG & UPB classes recently. Bailee Holmes, Education Program Coordinator from Experiencing Marine Sanctuaries (EMS), visited and took students on an incredible VR ocean adventure. Using VR goggles, students explored the Great Southern Reef, snorkelling and discovering a variety of marine species up close. There was so much excitement and curiosity as students immersed themselves in this hands-on learning experience. Along the way, they also learnt about marine conservation and the important role we all play in protecting our ecosystems. Thank you Bailee and EMS for such an engaging and memorable session.

Junior Primary Gold - Design & Technology

In a recent Design and Technology lesson, our Junior Primary Gold students discovered how and why bridges are built.

They saw pictures of many Australian bridges that were built for different purposes and saw strong shapes, like triangles, and artistic designs that looked like wings. The class then built their own bridges.

Great teamwork and conversations were had during this fun activity.
